

# CAREER TALKS SERIES

## Dr. Shibajee Mandal

In vivo Scientist  
(Charles River DRS Finland Oy)

### "My Journey as an in vivo Scientist from Academia to Industry"

In my job as Study Director at Charles River Laboratory, I effectively lead a team and various in vivo/ex-vivo projects simultaneously in several areas, from Multiple sclerosis to rare diseases. My scientific journey led me to industry early on during my studies, where I spent five years working in in vivo pharmacology in India between the end of my master's degree and the start of my PhD.

In my talk, you'll get to know about the experiences that helped me to start a career in industry. I will give you an overview of my daily work, which involves multiple tasks ranging from project management to client communication, reporting and scientific data interpretation and presentation. You will also learn about the work-life balance I enjoy, between scientific challenges and time spent with my family.

**Wednesday, 10 November 2021 at 17:00**

The event will take place online. Please register [here](#).

All are welcome to attend

Do you want to meet Dr. Mandal personally?
